

Your Ring

WHERE SIZE REALLY MATTERS

A ring is the most intimate of jewels and is often worn every day. It should fit well and feel comfortable, so here are some tips about correctly sizing your ring.

			21	10.25	U	62.75		22.75
.797	20.24	24	22	10.5	U.5		20.25	
					V	63.75		23.75

- Measure your finger size at the end of the day when your fingers are at their largest (like sizing shoes).
- Don't measure finger sizes when your hands are cold; let them warm up to room temperature.
- The width of a ring is an important factor in determining the right finger size.
- A wider ring may require a slightly larger size, because it covers more of your finger.
- Wrap a piece of string or a strip of paper around your finger.
- Mark the point where the two ends meet.
- Measure the string or paper against a ruler to get the circumference of your finger.
- Divide that by 3.14 to get the diameter of your finger.
- Look up your ring size using the table shown below.

To find your ring size, place your ring on top of any one of these circles.

The size of your ring is where the black circle sits snugly around the inner circumference of the ring.
